World Environment Day is a platform for encouraging consciousness and action for the protection of environment. This day provides us with an opportunity to broaden the basis for an enlightened opinion and responsible conduct by individuals in preserving and enhancing the environment.

Colourful charts, paintings were displayed at the school foyer depicting concern about the environment and the way to tackle the problem of pollution and global warming by planting more trees every year. The paintings also gave the message to keep the surroundings clean and save the planet Earth.

Slogans on World Environment Day encouraged and motivated the students to beautify the surrounding areas through plantations, greenery, saving water etc. This day also reminded that we have only one planet to live on, it is our home and only we are responsible to maintain its natural beauty forever.
